Good Karma Program

At Dream Big PR, we believe in empowering others to "Dream Big" who may not have the resources or the ability to do so on their own, or just need a little support. Giving back and supporting our community - locally and globally - is the cornerstone of the Dream Big Mission. Hurley works thoughtfully to weave together the "Good Karma" philosophy into her client work, establishing long-term, mutually beneficial partnerships between her clients and community organizations.

Dream Big PR supports issues and organizations, locally and nationally that founder, Kelly Hurley is personally passionate about; donating one percent of our annual profits to two new organizations each year with the hope that "dreaming big" makes our world a little more loving, peaceful and tolerant.
